SUMMARY

A detail-oriented **front-end Web Developer** with passion for elegant and user-friendly UI design. Proficient in **JavaScript**, **HTML5**, **CSS3**, and **Python**, with experience in **Anglular, React.js** and **Next.js**. Familiar with back-end frameworks such as **Express** and **Django** as well as SQL and NoSQL databases, experienced in creating and consuming **RESTfull APIs**. Armed with strong oral and written communication skills. Military service obligations fulfilled.

CAREER

Oct 2021 - present: **Atos** | Software Engineer

Working as part of an agile team in a multinational corporation.

PROJECTS

Memory Cards Game   [React | SCSS modules | HTML5 | Firebase Realtime db | Figma]

A classic memory game built with **React Components** and **Redux** (+Redux Thunk) for global state management. **SCSS modules** were used in order to keep the styles encapsulated. The project is deployed to **Firebase** as their Realtime Database was used for the storage of the world records.

GrumpyCat AI Chatbot   [JavaScript | CSS3 | HTML5 | Photoshop | Figma]

This grumpy AI chatbot (Dialogflow) is made with **Node.js (+Express)** and **Socket.IO** which provides a full duplex communication channel between the browser and the server. It works only on Chrome as it uses the **Web Speech API** (SpeechRecognition, SpeechSynthesis). This app was deployed to **Heroku**.

norma komma Website   [TypeScript | SCSS | HTML5 | Gulp | Figma]

The official website of the Greek Rock band 'norma komma'. It is built with **HTML5** and **SCSS**, along with **TypeScript** for the animations. **Gulp** was used as a task runner automating the minification, transpilation and bundling of the code. Metadata and microdata were included for **SEO** (100% score). Lastly, the website was deployed to **Netlify**.

TECH

CODING
- JavaScript | TypeScript
- React | Angular | jQuery
- Node.js (+Express)
- Jest | Mocha
- CSS3 & SCSS (+Bootstrap)
- Python (+Django)

DESIGN
- Figma
- Adobe XD
- Adobe Photoshop
- Adobe Illustrator
- Adobe InDesign

TOOLING
- Git & Github
- Gulp
- Webpack
- Rollup
- DevTools

MEDIA
- Adobe Premiere Pro
- Reaper
- Pro Tools
- Cubase
- Logic Pro

EDUCATION

National Kapodistrian University of Athens

BSc in Physics [Major: Computers / Telecommunications / Electronics / Automation]

Certifications

Mathesis CS3.1 - Introduction to Web Development with HTML5, CSS3, and JavaScript
Mathesis CS3.2 - Advanced Web Development
Mathesis CS1.1 - Introduction to Python
Mathesis CS1.2 - Advanced Programming in Python
Udemy: React - The Complete Guide
Udemy: Node.js - The Complete Node.js Developer course
Udemy: Agile Crash Course: Agile Project Management; Agile Delivery

LANGUAGES

Greek (native) | **English** (Michigan University Certificate of Profiency C2) | **German** (Goethe-Zertifikat B1)

OTHER WORK
